

Satanic Ritual Abuse Indicators Checklist

The following items are reported in many recovered memories of SRA:

1. _____ A Circle of People
2. _____ Chanting in a Foreign Language
3. _____ Robes with Hoods
4. _____ A Table
5. _____ Fire
6. _____ A Fancy Knife
7. _____ A Chalice
8. _____ Blood
9. _____ Feces and Urine
10. _____ A Sacrifice
11. _____ Demons
12. _____ Drugs – by Injection, in Drink or in Food,
To keep the Child Cooperative

If a person cites even a few of these 12 indicators in a recalled memory, it is very likely about SRA. There may be other items, but these cover what have been reported to me, virtually all of the time. There is also violent sexual abuse, killing a sacrifice, and there is dismemberment, destruction and consumption of the sacrificial offering. These perpetrating acts are present virtually all of the time, and they point to SRA. These indicators and violent acts are present when people worship Satan. That is what the rituals are – worshipping Satan. The above 12 items are included because they are specific to SRA, and appear in no other form of abuse. This means that they are very strong indicators. There have been at least 100 persons who have reported being victimized by SRA to me in my work as a psychologist, over a period of 30 years. These SRA indicators and perpetrating acts arise from their stories. Please honor these survivors by acting in their behalf, by assisting them. It is expensive to go through therapy, and it feels lonely. Pay for their counseling and give them the unconditional acceptance they are eager to find.
